Gif background remover

There are many animated gif stickers/emotions available. Most of them has opaque background of an existing gif, make your own sticker or emoji with transparent background easily. This feature is usually only Aavailable in APCA Asoftwares. Now, GIF Studio V1.8.0 brings it to the Android TM phones. The user interface is A Asimple and intuitive. You don¢AAAt need have designer knowledge, the result is directly drawn on the screen. A gif with transparent background doesn¢AAAt block too much of the photo. For adding sticker to an animated gif, please refer toà Âthe page:à ÂHow add sticker, emoticon to animated gif ¢Ã GIF Studio. In this page, we manipulate the animated sticker andà Âadd ità Âto a photo. View theà Âwhole tutorial in gif animation: Click to view in animation: an gif sticker the background photo to add sticker or emoji The output: Click to view the animated photo with animated photo wi sticker in A & A A A Now Playing & A A screen. Click the & A A Transparent Color & A configuration screen, moving the color picker to select the color which will be used as transparent color. If the gif is still loading, the alert message will pop up, just need to wait a while. Now, move the Color Picker to the background Aarea with Aavhite color. The chess board background Shown that the image area will be transparent. The range of colors, sliding the seek Bae160; left or right bar. Press the Cancel Button Bae160; To the left of the bottom of the screen to deselect the transparent color. Press Save to save the gif to the file. This can take a few seconds a minute, depending on the power of phone computing A. Transparent Color Setting Step 3 After the file is saved, the Now Playing screen Is Bae160; Screen A© pop-up again. The gif of the generated animated emo- has a transparent background. Click on sticker, emoticon to animated GIFStudio. You may need to swap the foreground and background image, moving the project. If the background/photo image is © large, this can cause problems. Please reduce photo por@ Sticker Screen Now, you should have a photo with an animated sticker on it. Donao~~~~em¨a¹t stop here. Using GIF Studio you can easily create your own sticker using photos or camera. Add texts to the animated gif, as shown below: Click to see the animation: the gif recorded with added text Share the project with your friends or make additional editing. Remember to like us, invite friends and give feedbacks to Josu160; google play store. Together, we make GIF Studio IS THE BEST app!
